

Technocracy Rising: The Trojan Horse of Global Transformation

With meticulous detail and an abundance of original research, Patrick M. Wood uses *Technocracy Rising* to connect the dots of modern globalization in a way that has never been seen before so that the reader can clearly understand the globalization plan, its perpetrators and its intended endgame.

In the heat of the Great Depression during the 1930s, prominent scientists and engineers proposed a utopian energy-based economic system called Technocracy that would be run by those same scientists and engineers instead of elected politicians. Although this radical movement lost momentum by 1940, it regained status when it was conceptually adopted by the elitist Trilateral Commission (co-founded by Zbigniew Brzezinski and David Rockefeller) in 1973 to become its so-called “*New International Economic Order.*”

The following 11 minute video is my personal message to you to decide if you really need to read Technocracy Rising.
