

Technocracy As A Religion: Satan's Alternative Plan Of Salvation?

TN Note: The early architects of Technocracy eschewed religion but many held a personal attachment to atheism or humanism. Nevertheless, the modern practice of Technocracy has many markers of a religion that make for a valuable discussion, especially since Technocracy is hostile towards Christianity and Judaism.

In the hearts of all humans, bar none, is the possibility of evil, thus sin, said GK Chesterton, is as obvious as potatoes. This being the case it is completely irrational for the unrepentant to think they can purify themselves and others when it is their evil conscience and will turned toward wickedness - aspects of their souls - that need cleansing. And it is because man is evil and depraved, that the 20th century's purification movements - Marxist Communism and Nazi Socialism - purified the human gene pool by murdering in excess of 160,000,000 men, women and children of which in Russia, approximately half were Christians. According to Srdja Trifkovic, persecution and martyrdom of Christians under 20th century totalitarianism, and mainly of Russian Orthodox Christians under Communist Bolshevism,

"...is by far the greatest crime in all of recorded history...Attempts at "killing the soul" started only months after the Revolution of

1917." *Persecution and martyrdom was, "several times greater than the Holocaust in terms of innocent lives brutally destroyed. It has killed more Christians in a few decades than all other causes put together in all ages, with Islam a distant second as the cause of their death and suffering. And yet it still remains a largely unknown, often minimized, or scandalously glossed over crime."* (New Martyrs of the East and Coming Trials in the West, Srdja Trifkovic, OrthodoxyToday.com)

In his analysis of Marxist Communism, early conservative intellectual Frank Meyer describes it as the state form taken by a materialist pagan,

"...faith determined to rule the world" Communism is the "final synthesis of all heretical tendencies that have pervaded Western civilization for many centuries." (The Conservative Intellectual Movement, pp. 251-252)

Communism is a godless, philosophically pagan form of heretical Jewish elements and heretical Protestant liberalism's upside-down, anti-creation account grounded in a chiliastic-evolutionary, apocalyptic proclamation of a coming new order based in belief in the inevitability of evolutionary progress from molecule to sea-weed, reptile, ape, hominid, and finally god-man and in the perfectibility of this fallen world. (1)

Chiliasm in Greek means 'thousand years' and is primarily a godless version of the millennial belief expressed in some Christian denominations that there will be a paradise on earth where Christ will reign for a thousand years prior to the final judgment and future eternal state.

The contemporary chiliastic-evolutionary movement is Technocracy. The world is being actively transformed by an amoral power elite and their minions according to a very narrow economical/political/social philosophy called Technocracy, and it is impacting every segment of society in every corner of the world:

"Technocracy is being sponsored and orchestrated by a global elite led by David Rockefeller's and Zbigniew Brzezinski's Trilateral Commission...Originally started in the early 1930's, Technocracy is

antithetical to every American institution that made us into the greatest nation on earth. It eschews property rights, obsoletes capitalism, hates politicians and traditional structures, and promises a lofty utopian dream made possible only if engineers, scientists, and technicians are allowed to run society. When Aldous Huxley penned Brave New World in 1932, he accurately foresaw this wrenching transformation of society and predicted that the end of it would be a scientific dictatorship unlike anything the world has ever seen.”
(Preface, Technocracy Rising, Patrick Wood)

Huxley concluded that Technocracy produces scientific dictatorship designed to scientifically engineer, manipulate, dominate and control the world’s wealth and resources and micro-manage every human being in every detail of his life. Moreover, said Huxley, the scientific and evolutionary system itself would become a god that was worshipped and questioning any aspect of it, such as the validity of evolution as empirical science, or any decision or outcome would be tantamount to blasphemy.

Like its’ 20th century counterparts, Technocracy is the evolutionary chiliastic expression of a coming Golden Age that is the culminating hubris of Promethean god-men who having ‘murdered’ the Christian God mean to purify and remake man and creation.

In “*Science, Politics and Gnosticism*,” highly respected political philosopher Eric Voegelin (1901-85) identifies many modern Gnostic movements. They range from Comte’s positivism, to progressivism, Hegelianism, Masonry, Marxist Communism, Nazi Socialism, Schleiermacher’s doctrine of faith, Protestant liberalism, and Luciferian Theosophy.

In an upside-down exegesis typical of Gnosticism, Helena Blavatsky, the founder of Theosophy, leading Masonic thinker, and important formulator of chiliastic evolution wrote in her book, “*The Secret Doctrine*” volume II,

“...it is but natural...to view Satan, the Serpent of Genesis, as the real creator and benefactor, the Father of Spiritual mankind...”
(Theosophy University Press, 1888, p. 243, 513)

Chiliastic-evolutionary systems are modern forms of ancient and very “elitist” pre-Christian and Christian-era Gnosticism which assigns the Holy Triune God to hell and instead worships Lucifer. Furthermore, it teaches that salvation is attained through the ‘elitist’ knowledge of Gnostic teachers such as gurus, god-men, certain scientists and Oprah Winfrey, a contemporary spiritual guide possessed of the knowledge of the Gnostic cosmogony.

With Satan as the spiritual father of an army of unrepentant Gnostic pagans, it is no wonder that modern Gnostic systems have so far produced every dictatorial, genocidal utopian movement of the 20th century and underpin contemporary spiritually pagan, chiliastic New Age and Technocratic globalist’s hopes and visions. In his article, *“Leftism a Radical Faith,”* Bruce Riggs notes that much of the political history of the extended 20th century is that of massive extinctions of citizenries by their dictatorial governments:

“Take the engineered mass starvations, torture chambers, firing squads, and gulags of Lenin and Stalin; Nazi gas chambers; Pol Pot’s Khmer Rouge killing fields; the genocides of Mao’s “Great Leap Forward,”; and the tyrannical North Korean Sung dynasty, and one will find that over one hundred million people have been slaughtered.” (2)

The authors of the Black Book of Communism point to the godless anti-creation Darwinian *“biological and zoological”* strain of thinking as the engine of evil that proved itself a most effective means of denying the humanity of millions of victims:

“This strain of thinking is why so many of the crimes of Communism were crimes against humanity, and how Marxist-Leninist ideology managed to justify these crimes to its followers.” (The Black Book of Communism, Stephanie Courtois, p. 751)

The devilish Gnostic rebel Vladimir Lenin concurs. Anti-creation Darwinism put an end to the belief that human, animals, and vegetable kinds bear no relation to one another and,

“that they were created by God, and hence immutable.” (Fatal Fruit,

Tom DeRosa, p. 9)

Twentieth century Gnostic pagan god-states systematically dehumanized and murdered millions of people in order to create an imagined earthly Eden purified of evil, and this is clearly insane. Yet this evil religion whose spiritual father is Satan continues today as a God-hating, globally elitist, evolutionary progressive, politico-centric faith entirely disdainful of orthodox Christian and faithful Jewish beliefs and contemptuous of those who subscribe to them.

In short, devilish Gnostic chiliastic evolution is a Satanic spiritually pagan religion with the look of a religious inquisition that represents the 20th century heretical version of orthodox Christianity. Unless we grasp this crucial point the nature of this devilishly evil religion will elude us.

Rise of Satan's Chiliastic Technocratic Utopia

In *"False Dawn: The United Religions Initiative, Globalism, and the Quest for a One-World Religion,"* Lee Penn warns that the United Religions Initiative (URI) and the Gaia initiative represents the spiritually pagan religious facet of the coming Technocratic New World Order. The URI is a United Nations organization that to a significant extent is animated by Satanic Gnostic chiliastic evolution. In preparation for the coming new order, a 'new' pagan spirituality is under construction of which the Earth Charter is set to become its Holy Writ.

Crafted by a conclave of 'Wise Persons' headed by former Soviet dictator Mikhail Gorbachev, the Charter's benign sounding verbiage,

"and symbolic nature camouflages its dangerous purpose. The Charter is intended to become a universally adopted creed that will psychologically prepare the world's children to accept the necessity of world government to save the environment. It is also an outrageous attempt to indoctrinate your children in the UN's New Age paganism." (The New World Religion, William F. Jasper, New American, 2002)

The URI has attracted a diverse group of activists and powerful

supporters such as the Dalai Lama, progressive churchmen from the People's Republic of China, pro-gay Episcopalians, radical Muslims, feminist goddesses and witches, rich capitalist foundations, the Club of Rome, the Temple of Understanding, and the Lucis Trust, formerly called Lucifer Publishing. (pp. 5, 7, 23-26)

Prominent supporters include occultist Robert Muller (former UN assistant secretary general and father of Common Core), Neale Donald Walsh, George Soros, Mikhail Gorbachev, Maurice Strong (deceased), Ted Turner, and Barbara Marx Hubbard. (ibid)

Penn notes that evolution is absolutely central to the ambitions of Technocratic global elites. Thus after more than eighty years of nearly unopposed evolutionary evangelization in schools, seminaries, pulpits, media, academia and elsewhere global elite god-men like Jeremy Rifkin are finally free to declare that evolution is a living "Mind" enlarging its domain as it evolves up and through the "chain of species." Moreover, now that the evolution god "Mind" reigns supreme, global elitists no longer feel like guests in someone else's home and therefore obliged to make their behavior conform with a set of pre-existing cosmic rules:

"It is our creation now. We make the rules (and) establish the parameters of reality. We create the world (and) no longer have to justify our behavior...We are responsible to nothing outside ourselves for we are the kingdom, the power, and the glory forever and ever."
(Algeny, Rifkin, 1983, p. 188)

Here we see that in the completely delusional, entirely depraved (Jer. 51: 17-18), and ultimately demonically orchestrated global elite dream-scape it is not the personal Triune God who has created and sustains the world. No, it is each Gnostic man-god who creates and sustains his own world and meaning in every moment out of his own divine consciousness. In other words, since according to the devil the substance of the Holy Creator God is distributed throughout all of the cosmos, including the mind of man, then by occult magic rituals such as transcendental meditation and brain-altering drugs, man can tap into the god-force within, thereby becoming a little god who controls the cosmos because he controls "Mind." The physical world then, is an illusion because

reality is inside the divine mind of the god-man.

Given the likelihood that an ancient evil intelligence has crawled inside Rifkin and other Technocratic god-men the fact that New Age spirituality relies heavily on spirit revelations channeled through mediums such as Blavatsky, Bailey, Benjamin Crème, Robert Muller, Neale Donald Walsh and Barbara Marx Hubbard, to name but a few, should come as no surprise. Penn observes that all together they form a comprehensive anti-Gospel setting forth a Gnostic progressive vision of apocalyptic spiritualized totalitarianism that includes:

1. Praise for Lucifer as the light-bearer and giver of wisdom
2. Highly evolved humans are gods.
3. Advocacy for extreme population control
4. Concentrated hate directed at faithful Judaism, orthodox evangelical Protestantism, and Roman Catholicism. Forecasting a pending, and for them, desirable selection of mankind in which the progressives enter the New Age millennium and reactionaries face extinction. For *"New Age Apostles of 'progressive' Social Darwinism, these casualties are a necessary price to pay for human evolution."* (Penn, p. 7)

Speaking through Barbara Marx Hubbard, her spirit guide 'Christ' prophesied in 1995 that the Rider of the Pale Horse will use the 'sword' as one of his means to *"kill those who choose to remain self-centered."* (ibid, Penn, p. 322)

The meaning of 'self-centered' is briefly defined in the Global Biodiversity Assessment; a document mandated by the U.N. sponsored Convention on Biological Diversity. This document explicitly refers to Christianity as a faith that, rather than making God and humans one with nature, has instead set God and humans *"apart from nature,"* a process in which nature has *"lost its sacred qualities."* The document states:

"Conversion to Christianity has....meant an abandonment of an affinity with the natural world." (Al Gore, The United Nations and the Cult of

Gaia, Cliff Kincaid, americasurvival.org, 1999)

In other words, because orthodox Christianity teaches that there is an unbridgeable gulf between the Triune God and His creation that is only breached by Jesus Christ then idolaters like Jeremy Rifkin do not and cannot share the substance of the Triune God as pantheism teaches. According to Christianity man is radically different from the Lord and atonement, purification and mediation is achieved only through Jesus Christ, Who rose from the dead. This means that neither Rifkin nor any other Technocratic global elitist is god but rather an evil idolater speeding along the broad, smooth highway to hell.

All modern Gnostic pagan movements share the same chiliastic goal: a coming "new pantheist order" and "new pagan god-man" completely purified of all evil and existing in oneness with the evolutionary god force. This means extermination of all faithful Christians and Jews and other dissenters who refuse to become one with the god of forces.

Purification also extends to Biblical moral standards, sexual ethics, traditional marriage and traditions derived therefrom since they have been by-passed by the ongoing process of evolution. These will be changed just as all distinctions between nonlife forms, life forms and gender will be blurred in the idea of evolution from molecule to ape to man and woman to transgender to androgynous god-man. In the same way, all distinctions between good and evil, nations and religions will be merged in the chiliastic vision of worldly purification.

In conclusion, Gnostic chiliastic evolution is the anti-gospel of Satan, thus the antithesis of the glorious Gospel of our Savior Jesus Christ. So powerful is the stranglehold of Satan's anti-gospel on millions of darkened Western minds that it has imaginatively inverted the order of creation and reversed the direction of Biblical theism, meaning that the millions of people whose minds are in bondage to Satan and his legions can no longer think right-side up. With creation ex nihilo virtually replaced by the evolution god it is now believed that men have not fallen from perfection but are instead gradually evolving upward from their ape beginnings toward greater and greater spiritual perfection.

For all Westerners who are perhaps uncomfortable with, offended by, or outright hostile toward the personal Holy Triune God and His plan of salvation Satan's anti-gospel provides them a chiliastic plan of purification and a substitute deity - evolution - the animated god force of the cosmos which men believe they can control and direct. Through scientifically controlled and directed evolution they imagine they are destined to realize unimaginable spiritual advances.
