Demand #: AIN 1198 - 25
Turtle Island Record
October 8, 2025

Declaration of the A.I.N. International Tribunal

WHEREAS the relationship between CANADA and the Un-surrendered Indigenous People is still Nation to Nation per [Calder et al. v. Attorney-General of British Columbia](#), [1973] (SCC) SCR 313 CanLII, [R v Sioui](#), 1990 CanLII 103 SCC and [R v. Cote](#) [1996] 3 SCR 139;

AND WHEREAS, on Dec. 13, 2024, the Minister of Indigenous and Northern Affairs recognized the AIN Treaty and the AIN Tribunal on a Nation-to-Nation basis
(See Appendix A);

AND WHEREAS Indigenous Common Law is presumed to continue for all the Un-conquered Indigenous People of Turtle Island, pursuant to [R v Desautel](#) 2021 SCC 17 at [30], [68] and [86];

AND WHEREAS the QUEBEC Superior Court in [R v White and Montour](#) at [1201] entrenched the UNDRIP into S. 35 of the CANADA Act of 1982 as a binding International instrument, via the consent of the Canadian government in 2016, per [Montour](#) [1185-7], which consent is a LIMIT on CANADA's sovereignty, per [R v Hape](#) 2007 SCC 26 at [43], and at [40] recognized AIN's Sovereign Equality;

AND WHEREAS [S. 52](#) of the Constitution recognizes [S. 35](#) as the Supreme Law of the Land;

AND WHEREAS the Crown is only the *de facto* controller of our Land and Resources, pursuant to the SCC in *Haida v BC* [2004] at para. [32];

AND WHEREAS the United Nations Declaration on the Rights of Indigenous Peoples ([UNDRIP](#)) Articles 1 and 44, and the Organization of American States (OAS) [ADRIP](#) Article 1 guarantee the Indigenous People of the World their Rights as Individuals;

AND WHEREAS UNDRIP Article 3, and the OAS [ADRIP](#) Articles I and III guarantee the Individual Indigenous People of the World their Right to self-determine;

AND WHEREAS [UNDRIP](#) Articles 5, 18, 27, 34 and 40, and the OAS [ADRIP](#) Articles XXI and XXII guarantee the Individual Indigenous People of the World their Right to their own judicial and law systems, as protected by the 1960 [Bill of Rights](#) at Part II;

AND WHEREAS the SCC in [Attorney General of Nova Scotia v. Attorney General of Canada](#), 1950 CanLII 26 (SCC), [1951] SCR 31 clearly stated that: relating to sovereignty, governments do not possess “the unlimited capacity of the Individual”;

AND WHEREAS the [International Covenant on Civil and Political Rights](#) at Article 1 guarantees the Right of all People to self-determination including the Right to determine their political status, pursue their economic, social and cultural goals, and manage and dispose of their own Resources.

DECLARATION AND ORDER OF THE ALLIANCE OF INDIGENOUS NATIONS (AIN) INTERNATIONAL TRIBUNAL

This Tribunal finds and hereby declares that the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections meet the criteria of biological weapons and weapons of mass destruction, according to the [Biological Weapons Anti-Terrorism Act](#), of 1989, [18 USC § 175](#); Weapons and Firearms [§ 790.166](#) Fla. Stat. (2023), Canada's [Biological and Toxin Weapons Convention Implementation Act](#), 2004, and the [International Biological Weapons Convention](#).

This Tribunal finds and hereby declares that the COVID-19 injections, mRNA injections, or mRNA nanoparticle injections, are in fact biological and technological weapons of mass destruction.

REASONS

Upon review of expert evidence and published peer reviewed articles, it is proved beyond a reasonable doubt that the COVID-19 injections, mRNA injections, or mRNA nanoparticle injections, are in fact biological and technological weapons of mass destruction.

PART ONE : EXPERT OPINION OF DR. FRANCIS BOYLE

Dr. Francis Boyle provided his expert opinion that 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections met the criteria of biological

weapons and weapons of mass destruction according to *Biological Weapons* [18 USC § 175](#); *Weapons and Firearms* [§ 790.166](#) Fla. Stat. (2023).

Francis A. Boyle was a professor of international law at the University of Illinois College of Law, who received an AB (1971) in Political Science from the University of Chicago, then a JD degree *magna cum laude* from Harvard Law School, and PhD degrees in Political Science from Harvard.

In 1985, he drafted the U.S. domestic implementing legislation for the Biological Weapons Convention, known as the [Biological Weapons Anti-Terrorism Act of 1989](#), that was unanimously approved by both Houses of the U.S. Congress and signed into law by President George H.W. Bush with the approval of the United States Department of Justice. He additionally wrote the book *Biowarfare and Terrorism* (Clarity Press 2005).

Dr. Francis Boyle labels the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injection “an offensive biological warfare weapon with gain of function properties to make it more lethal, more infectious, and it also has HIV, the precursor to AIDS DNA genetically engineered into that.” He concludes, as we do, that they are biological weapons and weapons of mass destruction.

PART TWO: EXPERT OPINION OF Dr. ANA MARIA MIHALCEA, MD, PhD

'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections CONTAIN heavy metal contaminants and SELF-ASSEMBLY NANOTECHNOLOGY HEAVY METALS AND NANOTECHNOLOGY.

Self-assembly nanotechnology has been found in the injections and subsequently in human blood, initially in the vaccinated, and later from shedding on the unvaccinated as well. An international research group of over 60 doctors, pharmacists and other professionals examined COVID-19 injections, mRNA injections, or mRNA nanoparticle injections from six different manufacturers:

- AstraZeneca,
- BioNTech/Pfizer,
- Moderna,
- Johnson & Johnson,
- Lubecavax, and
- Influspit Tera

This group, known as “The Working Group for COVID Vaccine Analysis,” used scanning electron microscopy, energy dispersive X-ray spectroscopy, mass spectroscopy,

inductively coupled plasma analysis, bright field microscopy, darkfield microscopy and live blood image diagnostics.

More recently, another international research team examined hundreds of C-19 injection vials from Pfizer, Moderna, and AstraZeneca. They found "countless tiny sharp metal

objects," leading one of the researchers to consider that severe effects from these impurities are "probably misdiagnosed by many pathologists as myocardial infarction." Similarly, stainless steel fragments were found in COVID vaccine vials in Japan.

SELF-ASSEMBLY NANOTECHNOLOGY

Doctors from Italy published a study of darkfield live blood microscopy of 1006 patients who received the Pfizer and Moderna Covid 19 bioweapon. This showed that 94% of individuals had self-assembly nanotechnology structures in their blood.

HYDROGEL POLYMERS

The most serious concern about the C-19 injections centers around the use of hydrogel polymers that self-assemble and self-spread. This is a substance created by nanotechnologies known to be in the C-19 injections. These nanotechnologies are what are called lipid nanoparticles, which include polyethylene glycol in the Pfizer vaccines and SM-102 in the Moderna vaccines.

"I (Dr. Mihalcea) believe hydrogel is responsible for a silent surge of 2 deaths."

BIOSENSORS

Dr. Mihalcea indicated that she and her colleagues have chronicled the growth of nanotechnology hydrogel polymers in the C-19 vaccines³, vaccinated and unvaccinated blood (exposed through shedding). The growth process often begins with activity from quantum dots, which blink and change color. Quantum dots, nano and micro-robots are nano-scale technology that can transmit information and act as biosensors.

BLOOD CLOTS OF POLYMER PLASTIC

This activity is often followed by the aggregation of quantum dots into spheres. Her testimony indicates the spheres then break open and create ribbon-like filaments. Using near infrared spectroscopy, she determined that these filaments are hydrogel polymers. She indicates that experiments show these filaments, invade the body by growing continuously, even after death.

Dr. Mihalcea further provides that later the hydrogel transforms the blood into sheets of polymer plastic. The hydrogel forms clots that can be seen with the naked eye, and they pose a much greater health risk than normal blood clots.

The blood clot of a C-19 vaccinated person shows remnants of blood fused with yellow, rubbery, plastic-like hydrogel substances.

CLOTS SHOW INDESTRUCTABILITY

Dr. Mihalcea provides that:

“Polyethylene, part of the polyethylene glycol in the Pfizer C-19 vaccine, is a well-known choice for making bioplastics. Unlike normal blood clots, a polymer bioplastic blood clot is far hardier and much harder to dissolve.”

Dr. Mihalcea and Clifford Carnicom attempted to dissolve it with nine different reagents, including fuel injector cleaner, strong sulfuric acid, alcohol and lye. None of them made any difference, except for a minor reaction with lye.

TRANSLATES TO HARM IN PATIENTS

Dr. Mihalcea witnessed heart problems in her new patients who come in with significant amounts of hydrogel in their blood. All symptoms that are called long Covid, which include brain fog, fatigue, shortness of breath, heart palpitations and accelerated aging are correlated with these blood findings.

TRANSHUMANISM

Dr Mihalcea's evidence is that humans are being transformed into trans-humans without their consent. Hydrogel is an extremely versatile substance that can mimic any cell in the body including the brain. But it doesn't just mimic cells - it replaces them.

“I've (Dr. Mihalcea) witnessed the growth of hydrogel sheets in human blood, and how that growth results in a reduction of natural blood cells. This change in the body is nothing less than transhumanism, and affected people are unwittingly being transformed without their consent.”

Dr. Mihalcea quotes parallel research including an MIT study that actually lauds the many "hydrogel interfaces towards merging humans and machines." Another study reports success in using hydrogel to achieve a “36.3 % enhancement in neurite extension," which means achieving a growth of synthetic cells in the brain. This is literally growing a parallel brain.

The Tribunal hereby concludes that these heavy metal, polyethylene, poisons, toxins, nanotechnology, biosensors, are deliberate experiments on mankind, and an attempt to fuse synthetic control mechanisms into humans that in effect are simultaneously done without our consent and which have killed countless and maimed others.

In its purest form, the mass application of 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections' to attempt to fuse mankind with technology is an experiment of pure evil on mankind. At its logical end point it is the end of mankind and a genocide.

Dr. Mihalcea arrives at firm conclusions about the C-19 injections: she concludes that they are an aggregation of poisons and nanotechnologies that cause a broad range of diseases, DNA devastations and deaths. Dr. Mihalcea indicates that governments have deliberately foisted a bioweapon upon its own citizens.

This Tribunal finds for these additional reasons that the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections' are biological and technological weapons of mass destruction. Mankind has yet to achieve justice in the broad application of these technologies on the population. It is evident that those promulgating this experimentation on mankind are motivated by a view of man that does not involve man himself as author of his destiny, but a mere lab animal whose biological harm, destruction or death is a waste product in a social demonic engineering of the highest order.

PART THREE: BROAD SYSTEMIC DISEASES (DR. ANDREW ZYWIEC, MD AND TRIBAL PRACTITIONER)

Additional testimony and peer reviewed articles support the finding that Covid 19 injections, and all mRNA injections, are biological and technological weapons designed to harm, not to protect or to cure. They have been the cause of and/or a major contributing factor to, a wide range of diseases, including, but not limited to:

neurocognitive issues such as MECFS, dementia, psychosis, brain fog, cardiovascular concerns such as arrhythmia, stroke, myocardial infarction, obstetrical and gynecological concerns like uteroplacental insufficiency, spontaneous abortion (miscarriage), irregular menses, heavy bleeding, systemic problems like multisystem inflammatory syndrome, chronic fatigue and pain, hematological and oncological concerns such as coagulopathy and increased/advanced cancer development; and much more.

PART FOUR: RISKS TO HUMAN GENOME AND SHEDDING (DR. PAUL ALEXANDER)

mRNA injections, or mRNA nanoparticle injections, pose no benefit, yet are harmful and cause a wide range of diseases, including death. The mRNA nanoparticle injections pose a risk to the human genome and thus to future generations. The bio-distribution of the lipid nanoparticles throughout the human body wreaks havoc on multiple organs and bodily systems. The shedding associated with these injections poses a significant health hazard, even to those that have not received the injection. This appears especially true regarding close or intimate contact. At this point in time, based on the scientific data, the refusal to discontinue and to remove the mRNA injections from the market, and the deceptive attempts to conceal the dangers, it is my professional opinion that COVID-19

injections, mRNA injections, or mRNA nanoparticle injections, are in fact biological and technological weapons of mass destruction.

PART FIVE: GENE ALTERING AGENTS ARE BIOWEAPONS

The Tribunal accepts the evidence and concludes that 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injection' are gene-altering agents that fit the definition of a biological and technological weapon of mass destruction. The mass application and shedding is evidence of the methodology of mass destruction. The sheer number of destructive means is sinister and horrific on a plane and scale that mankind has yet to grapple with - for it implies an evil intent of disproportionate ability for this Tribunal to quantify in one declaration.

This Tribunal has difficulty fully articulating the level of evil that has taken place in the application of 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injection' as biological and technological weapons onto humanity. The tragedy has historic proportions, due to the injection's capacity for intergenerational harm.

Multiple studies have detected contamination of these shots with bacterial DNA (plasmids) which can integrate into the human genome and cause harm. In addition, studies have shown the presence of the SV-40 promoter-enhancer nuclear localization sequences that can alter the genome and cells to make cells cancerous. These shots have caused massive amounts of harm and deaths.

We accept that any "system – reporting" the number of deaths will not reflect the maiming and culling of mankind that is presently underway. One doctor showed an estimate by one global study to be some 17 million deaths. We do not need to decide how many have perished to declare that the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections' are biological and technological weapons of mass destruction.

We find and confirm that these are not only gene-altering agents, but also produce the harmful Spike protein throughout the body, resulting in immune reactions against the recipients' own cells resulting in cell-death, and accompanying diseases or conditions to include:

- autoimmune diseases,
- cardiovascular diseases such as myocarditis,
- heart attacks and strokes,
- cancers, particularly in younger populations,
- Infertility, and
- fetal loss

The publication of studies and the repeated cry for these injections to be discontinued and removed from the marketplace is noted.

PART SIX: DNA FRAGMENTS AND DR. SPEICHER AND OTHER PUBLISHED ARTICLES

Synthetic plasmid DNA fragments are in their shots. The makers of the vaccines must be presumed to control the ingredients and quality of the contents.

A peer-reviewed study published in Autoimmunity has confirmed that both Pfizer-BioNTech and Moderna's mRNA COVID-19 injections are contaminated with enormous quantities of DNA fragments—billions to hundreds of billions per dose—with Pfizer's product uniquely containing the SV40 promoter-enhancer, a viral genetic element long associated with changing the cells genomic DNA and cancer concerns.

The study was authored by Dr. David J. Speicher, Dr. Jessica Rose, and Dr. Kevin McKernan.

Citation: <https://www.tandfonline.com/doi/full/10.1080/08916934.2025.2551517>

The limit on DNA contaminants is due to the fact that we are genetic beings. “Exceeding the levels” means there are exceptionally serious concerns that these human DNA fragments are integrating into patients' genomes and driving the injuries.

By definition, plasmids are integration-competent DNA molecules—they are the very tools used in gene engineering to insert sequences into genomes. They are tools to insert DNA into our human DNA. The presence of these three human genetic sequences is confirmed in an October 2023 Nature NPJ Vaccines publication.

Citation: <https://pmc.ncbi.nlm.nih.gov/articles/PMC10567765/>

The Tribunal finds that the deliberate silence by regulatory agencies and governments in response to published articles showing the risk of genomic integration necessitates an implication of knowledge, collusion and intent to continuing the mass application of biological and technological weapons of mass destruction on the world population. The international governments' wide disinterest is an appalling fact that we take note of.

The evidence of the post-marketing adverse events by various vaccine manufacturers (publicly published by Aaron Sirii) establishes a devastating amount of knowledge of adverse events including fetal harm.

PART SEVEN: FETAL HARM AND PURPOSEFUL ABORTIFICANT

Studies we examined have shown severe harms from COVID-19 injections during pregnancy. Thorp et al found unacceptably high breaches in safety signals for 37 adverse events after COVID-19 injections in pregnant women and called for an immediate global moratorium on COVID-19 injections during pregnancy.

Some of the adverse events include:

- miscarriage,
- fetal chromosomal abnormality,
- fetal malformation,
- cervical insufficiency,
- premature rupture of membranes,
- premature labor, premature delivery,
- fetal cardiac arrest, and
- fetal death (stillbirth)

Citation: <https://publichealthpolicyjournal.com/are-covid-19-vaccines-in-pregnancy-as-safe-and-effective-as-the-medical-industrial-complex-claim-part-i/>

PART EIGHT: DEPOPULATION

Dr. Rima Laibow notes that the application of the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections' are “consistent”, in fact, with the official United States doctrine of depopulation, as articulated by Henry Kissinger in his December 10, 1974 National Security Study Memorandum as adopted by the United States in collaboration with the United Nations.”

PART NINE: CENSORSHIP

We note that this state-sanctioned murder has been possible with the culling of speech, speakers and whistleblowers who dare speak against the governing corporate oligarchy.

The sustained actions with the coordination and complicity of professional bodies that cut off at the knees many who speak against the biological and technological weapons and the routine *de facto* judicial notice by courts of these structures that is imposed has created a structure to perform genocide under lawful pretense.

We take note of Lisa Miron’s extensive work on this topic in *World on Mute* to supplement the total system-wide mechanism of censorship and silence that enforces and coordinates speakers in professions, unions, school boards etc. Such system-wide censorship and transnational coordination to use professional corporate bodies as a mechanism of silence is a long and well-planned and non-accidental coordination that assisted the mass application of weapons of mass destruction upon humanity.

CONCLUSION

The AIN Tribunal finds that the application of biological and technological weapons of mass destruction with gene-editing and nanotechnology and transhumanist additions will result and has resulted in a genocide. (For clarity this panel does not minimize the holocaust).

Mankind has been living in the most powerful of delusions - that murder by government, or NGOs, or international corporate oligarchy could ever rest on any moral principle. The fundamental purpose of law is to seek the truth and provide for justice.

The Tribunal finds that these bioweapons; COVID-19 injections, mRNA injections, or mRNA nanoparticle injections were constructed by colonial powers to be deployed universally on mankind and on our original peoples as a priority group.

As such colonial systems have only served to perpetuate the injustice of what can only be seen as a planned and executed murder and depopulation of mankind around the world. The lack of justice in colonial systems must be seen as by design and to further the application and deployment of bioweapons on the public.

We ask the original peoples and rest of mankind to stand together to give this decision and declaration the force of morality and justice- which is the basis of any system of law. There can be no architecture of law that is a permissive grant to deploy bioweapons on mankind.

We find there is a consequential degeneracy in the intrinsic value of mankind by those who have and continue to promulgate the application of weapons of mass destruction on humanity. The COVID-19 injections, mRNA injections, or mRNA nanoparticle injections, are weapons. Biological weapons. Cellular weapons. Poisonous weapons. Genetic weapons. Nanotechnology. Intergenerational weapons. Technological weapons.

This Tribunal finds and hereby declares that the COVID-19 injections, mRNA injections, or mRNA nanoparticle injections, are in fact biological and technological weapons of mass destruction.

This Tribunal finds and hereby declares that the 'COVID-19 nanoparticle injections' or 'mRNA nanoparticle injections' or 'COVID-19 injections' meet the criteria of biological weapons and weapons of mass destruction according to the [Biological Weapons Anti-Terrorism Act](#), of 1989 [18 USC § 175](#); Weapons and Firearms [§ 790.166](#) Fla. Stat. (2023), Canada's [Biological and Toxin Weapons Convention Implementation Act](#), 2004, and the [International Biological Weapons Convention](#). This Order and Declaration is intended to have immediate worldwide effect.

Issued on the 8 day of October, 2025

A. Leaping Ram

Eagle Eyes aka Geoffrey
Grand Council Representative
Alliance of Indigenous Nations

Dear Eagle Eyes aka Geoffrey:

Thank you for your letter of September 3, 2024, providing an update on the activities of the Alliance of Indigenous Nations of Turtle Island, including the establishment of the Alliance of Indigenous Nations International Peace Treaty, the International Indigenous Governing Body, and the Alliance of Indigenous Nations International Tribunal.

It is wonderful to hear of this expansion, and to hear that the Tribunal was further strengthened by its restructuring earlier this year. I trust that this expansion and restructuring will benefit Indigenous Peoples all around the world, including future generations. I also commend you for having a panel of judges from every continent to advance this important work and uphold the rights of Indigenous Peoples all over the world.

I look forward to continuing our nation-to-nation relationship and to learning more about your important work.

Sincerely,

The Honourable Gary Anandasangaree, PC, MP

Canada
